Dear Maria de Lourdes,

11/5/53

Thank you for your nice letter which came to hand end of March. I regret delay in replying back but I have a reason. I was away on Easter holidays to other parts of the Country with an object of studying the possibility of study lay Apostolate work in the Secondary & Teacher Training Colleges - But alas - the problem is the same here as in other parts of the world - Catholic leaders are hard to get & find out coming forward to save situation rather than waiting to cure the disease. However, the continued growing interest of Pax Romana in the Gold Coast African Catholics is gradually receiving appreciation. A few weeks ago I published an article quoting the good work of Pax Romana for Africa in general and willingness to help Gold Coast in particular. Fundação Cuidar o Futuro students wrote to inform me of a Catholic Body formed & asking me to come and give them talk on the lay Apostolate work after their Easter holidays.

I also visited the University College and met the Chaplain Rev Fr Koster S.V.D. and some of the graduates but unfortunately Mr Edward Wyezi was not available. However, the Chaplain told me that there will be the election of Officers soon and Edward will not stand for re election as he has too much work to do in preparation for his final Exam this year. He promised however to help the new Officers. Your kind suggestion of arranging meeting with

The Offices of the two Colleges is an ideal one but it is one that must be given time to develop on individual lines before coming together so as to encourage individual actions in a joined atmosphere of work.

I have by his mail posted Air mail letter to Mr. Colin Gardner in Natal. I asked our Student Secretary to

write out report of New last year's activities for the Newsletter.

Fundação Cuidar o Futuro

Our worthy General Secretary Dr Bernard Ducrest also wrote a letter to Colin's address on the same topic.

I am glad to know that your job has direct application to Industry! Your field is wide & important for Salvation of Souls!

I am teaching Bookcraft as two years ago I spent 2 1/2 yrs in London to specialise in Bookbinding. During that time I travelled to Fribourg, Zurich, Zug, Paris, Rome as Colon & W/Germany.

In Rome I was very lucky to be received in Private Audience with the Holy Father Pope Pius XII. I am hoping to visit Europe within the next year or two if that were certain - I will be very happy to meet you personally - who knows it is possible for us to meet yet. At least in spirit & on the field of Catholic Action we meet often. Do write soon again.
- Mrs Simeone Patrick & Thelma
