Dear Maria,

You will have received my telegram about the arrival of Noël Ross. I hope you managed to put him up somewhere cheaply. He has to wait in Portugal to get a visa for Morocco and a ship to take him there.

It would be very useful if you could arrange for Noël to meet some of the student and graduate circles in Lisbon. He is a man with very wide experience, and he can bring you up to date about the situation of our federations both in Asia and Africa, which he has recently visited.

I am sorry to disturb you with all this at the last moment, but Noël's arrival in Lisbon is off-schedule, and we did not know about it before.

How are you doing yourself? What are your plans for the future? If you ever have time, you might write me a few lines, apart from your articles, which by the way, are tremendously appreciated here.

With best wishes,

Thom Kerstiëns  
Director General.

Joe Ker. is going to the states for  
two years on a research project  
When you come to see the family?
