TO THE PARTICIPANTS IN THE EXPERTS' MEETING ON "COOPERATION BETWEEN MEN AND WOMEN"

Dear Everybody,

I hope that you have had a happy Christmas since you all scattered on your various ways, and that these few lines will find you at the beginning of a year which will bring much joy for yourselves and greater peace for the world.

May I say again how grateful I am to you for all you contributed to our meeting; and how grateful our Committee is for your contribution to our Congress, which we hope may be one more milestone along the way of God's People towards deeper unity and greater Christian commitment.

As you will understand, it has not been possible to prepare full minutes of our meeting, although nothing will be lost from the wealth of material provided by our discussions. The enclosed summary is intended only as an instrument for further collaboration in the two fields covered by our meeting: ecumenical activity for women, and the immediate preparation of the Congress Workshop on "Cooperation".

Fundação Cuidar o Futuro

In relation to the second part of our work, may I remind you that we are counting on further suggestions on the following points:

- 1) The exact questions to be dealt with in the Workshop.
- 2) Bibliography and documentation which could be useful in preparing the Workshop.
- 3) Experts, men and women, who would have a contribution to make as leaders or members of this or other Workshops.

We shall be grateful for your suggestions right up to the time of the Congress. They will be especially useful, however, if they reach us soon, and in any case before Easter. It is during April that we hope to finalize the content of the various Workshops in the first part of the Congress programme.

Judith joins me in sending warm greetings and wishes. We shall be specially united with you during the coming Week of Prayer for Christian Unity.

Yours very sincerely

Affectueux

Rosemary Goldie
