Dear Maria,

That you are always in my heart you must know, but since the time that you play the first role in the Portugese politics you are also frequently in my thoughts. I think it must be a great but also fascinating responsibility that you are called to bear now. I guess in this kind of work you are optimistic one day and getting frustrated the other. But I know that you also believe in the always inspiring and renewing Spirit who gives us space and future.

Trees informed me about your lectures on "Les feminismes nouveaux" which I have ordered and have read with great interest. It would be so worthwhile when we should have a chance and an opportunity to exchange our thoughts, ideas and experiences on a new, inspiring and transforming christian feminism.

The American W.O.C. has asked me whether I could organize a European task force to cooperate with. What I should like to do is to try to bring together for a first encounter some women, feminist theologians and other christian feminists, in order to examine if we have a good many items in common.

I clearly understand that you have no time now to cooperate, but I longed for writing you, sharing what we have in common and admiring the work you are doing!

With all my love,

Your friend

Catharina J.M. Halkes
