I want to congratulate you in regards to your new assignment as Prime Minister of the country. I am really proud of you, Maria. I am also proud because I know you personally. And I am telling my friends here that I know you personally. So they want me to write about you. But I don't have any data about you, nor any photograph of you, except all my good remembrance about you. Would it be too much for you if I ask you to send me photographs and articles/biography of yourself to me to enable me to write something that is worthwhile. It is really something for us here to know that European countries are starting to have Ladies Prime Ministers. We, Indonesian women are proud of it ! And being you the one that is Prime Minister means a whole lot more to me and to our Grail friends here. I think it is a big shot, really.

Maria, I don't want to disturb you with a long letter. The only thing I can tell you about myself is that I am doing well and I am still happy with my work here, at the newspaper office. I am expecting Moya to stop by in Indonesia on her way home after the IGA Meeting. Then we will talk again about the meeting and about Portugal. Right now there is no Portuguese Consulate in Jakarta. It was closed down since the troubles about Timor. That's why no one here can get any information about you. And no one has any source for publication. If you will send me the necessary information about you, I will publish it in our woman page of our daily paper. I hope you will do this, Maria. If you are too busy perhaps one of the girls at the center will help you with this ? Thanks a lot, Maria. I hope to see you again some day.

Materials could be sent to my office address:

My best wishes to you and to all who are with you.

Very much love,

(Grail)

Daisy
