

Breda, 2nd. December 1969

Dear Maria,

How are you since our Tildenberg Seminar?
Now that I know that Abbe is writing you a
letter and sending you a copy of a part of the report
I like to add some feelings and a personal
word of communication to you. - I have missed
further contact with you so that we might
have talked things over and have exchanged
our impressions on the Conference.

As I had understood from Eric that you
were expected in Holland in November,
I had hoped to discuss the things about
which Abbe writes you. I do hope you can
understand me difficultly in composing
