

May 25, 1970

Dear Friend,

I especially wanted to let you know about our July 10-12 weekend on

NEW LIFE STYLES FOR WOMEN.

In the ferment of the 70's, the "women" questions have taken on a whole new life. It's a good time to review old ideologies (personally, I find I don't agree with much of what I confidently proclaimed 20 years ago), and to explore new options.

The small group who have been meeting in this area to plan for the weekend includes women of different generations, life situations, and viewpoints, and we hope that a still more varied group will join us in July. The program will include in-put by resource persons from NOW (Sister Austin is one of the founding members), WLM, and various church groups, as well as from the Grail. There will be lots of opportunity to meet each other in small groups, in a relaxed atmosphere, conducive to open exchange and sharing of fears and hopes.

I'm enclosing some fliers for you--would you pass them on to individuals and groups who may be interested. Just let me know if you need more.

Here's hoping you can be with us in July.

Sincerely,

Janet Kalven
