Dear Dr. Püllen,

During these days, after my
return to Portugal, I have often
thought of you and of the interest you
have shown towards the political
process here. You would have
endless material for reflection!
I was very glad with the
opportunity to meet you and
I hope that, through you,
the mass-media in your country

may become ever more sensitive
to the ~~the~~ uniqueness of this
process due to its meaning
for today's work.

With my best thanks,

Yours sincerely
