YEARBOOK 1958

Fundação Cuidar o Futuro

INTERNATIONAL FEDERATION
FOR PROMOTION
OF THE
WORLD
THE YEARBOOK

LONG-TERM PROGRAMME

At its 25th Conference in Warsaw in September 1959 the FID approved a programme surveying the fields in which FID should have a rôle and defining desirable FID activities in each of these fields.

The principal items of this programme are (more or less in the chronological order of handling of documents):

- primary and secondary publication
- the linguistic problem
- document reproduction, copyright and selection
- classification
- information centres
- training of documentalists and information officers
- standardization
- bibliography and abstracting of documentation
- an FID information centre
- aid to less advanced areas

The programme also includes directives for the organisation of the Federation. It has been published as FID publ. 325 under the title "Outline of a long-term policy of the International Federation for Documentation" and may be obtained free from the General Secretariat in the Hague.

Translations from the basic English full edition in French, German, Hungarian, Portuguese, Russian and Spanish will shortly be available.

Fundação Cuidar o Futuro

STATUTES

Founded in Brussels on 2 September 1895 the Federation was registered by Belgian Royal Decree of 29 August 1959. The Statutes were published in the "Moniteur belge" of 7 September 1959. Modifications with regard to the former Statutes mainly concern the organs of the Federation and the classes of membership.

Membership

The following classes are distinguished:

- a) full members
 - National members
 - Specialist members
- b) associate members
 - elected members (former associate members)
 - international members (including former specialist group members not elected to the Council)
 - honorary members.

Organs

The organs of the Federation are:

- a) the General Assembly of full members (this organ together with the "Council", see at c, succeeds the former Council).
The General Assembly possesses full plenary powers to ensure the attainment of the objects of the Federation. It is normally convened once every year by the Council. It elects the members of the Council and the Bureau, it establishes the programme of work and may appoint study commissions.
- b) the Consultative Assembly
This organ is normally convened once every three years. It is open to members of all categories giving an opportunity to discuss questions of general interest in the field of documentation at an international level.
- c) the Council
The Federation is administered by a Council consisting of 10 to 60 members to be elected from the full members of the General Assembly. The Council possesses full powers of management and administration, excepting such powers as are reserved to the General Assembly.
The Council meets at least once a year. Each member of the Council may be accompanied by another representative of his organisation. The Council decides upon the admission or exclusion of members subject to ratification by the next following General Assembly; in the case of countries represented by a national member, the Council decides on the admission of an elected member on the proposal of the National member.
The Council lays down the scale according to which annual contributions are calculated. A member who has not paid the contribution for the preceding year is liable to suspension of all rights until the arrears have been paid.
- d) the Bureau
The Bureau exercises the powers delegated to it by the General Assembly between the sessions of the Council. Decisions made must be reported to the Council.
- e) the Secretariat

Dues and privileges of members

National members pay an annual contribution of $n \times 300$ Dutch guilders and from January 1961 $n \times 1.000$ guilders.

Specialist members pay a contribution of 250 Dutch guilders per year + 50 guilders for each country member above five.

Elected members pay an annual contribution of 50 guilders in the case of individual membership, organisations pay 100 guilders.

International governmental members pay a contribution of 1.000 guilders per year, international non-governmental members 100 guilders per year.

National members are entitled to 3 free subscriptions to the "Revue de la Documentation" and the monthly "FID News Bulletin". All other members receive one free subscription.

A discount of 25% on the sales price of publications issued by the General Secretariat is given to National and Specialist members. The other members are entitled to a discount of 20%.
