Title: Goals + strategies for ^{national} development
in the context of the structural crisis
at the internal level

Introduction: It is undoubtedly a laboratory
of today's problems concerning the goals
+ strategies of development. Because of
^{two main reasons of} ~~its~~ ^{opening the short space of 8 years} democratic process, ~~has allowed~~
^{off development} ~~to~~ enabled the problems to be seen
in their inter-relatedness and
mutual causality.

~~to~~ In the same period some "dogmas"
and ~~methods~~ ^{Fundação Cuidar o Futuro} have shown their in-
adequacy to the present times; Events,
~~governmental~~ ^{people's} decisions, ^{+ recent} aspirations are all too clear to prevent
elaboration of complicated theories
+ explanations.

Moreover, the ~~limits~~ ^{successive} appropriation
of ideas + practices by well-known
politicians and the disputes over
persons, doesn't enable lead easily
The ~~shift~~ ^{successive} of fate which
have occurred in the international
field (e.g. rise + fall of the oil empire)

have ~~had~~ in Portugal an almost direct impact and a transparency of analysis which are conducive to their adequate treatment in the elaboration of strategies of develop/.

The second reason has to do with the size ~~of~~ and geographical situation of P. It is a country of a manageable size, whose internal disparities can be contained in a global analysis. ~~The class~~ It is a country where North/South, coast/interior, mountains/lowlands ~~have an exemplar behaviour~~ constitute a clear demonstration of cleavages touching different countries or regions within the same countries. ~~At present~~ problems of develop/ are present in such a country + can therefore be tackled in a concentrated way.

Objective : To establish a model of develop/ for P. according to the following premisses :

a) abandonment of the classical dominant economic theories ~~with~~ ^{while taking into account} ~~simulation~~ of the processes at work in the Port. society

b) acknowledgment of the fact that in the past 8 years an enormous amount of material has become available, ~~and needs to be screened~~ ^{with} special emphasis on the period of the ^{Fundação Cuidar o Futuro} Pintosilga administration when a new type of strategy for development has been put into motion

d) ^{the} elaboration of a model of develop/ ^{which may} ~~may~~ be a help for new actions + decisions of countries taken ~~into~~ up into the dominant world models
