Dearest Jean,

Thank you so much for your hospitality and unceasing concern. I have no words to express the joy I have experienced during my brief visit to Washington. You have organized everything in the best possible way. I enjoyed very much the contact with the faculty members and the students at Maryland University. The feminist salon at your home was - as it has already been the first time we met - most enjoyable occasion to widen my views and to get acquainted with new interesting people.

This visit will remain in my mind surrounded by the enchantment of so much beauty in your own house as well as in the whole city. The blooming will always be associated in my mind with this visit. Thank you once again for having made it possible!
