

Gautam - social market?  
- religion + market

- shared values not necessarily positive  
- free market can not work without nat. power

- debatable...

- freedom: entrepreneurship

in India, a fear that privatization would  
1. logic of a social market economies

- child labour / is the ultimate distortion of the market  
↓ a market phenomenon

- trafficking in ♀ and in organs selling

- a person today has to know that he or she has to be prepared  
for change, no career

- Sarkar / erosion of democracy

- people's assembly

rights of capital > rights of the person

Fundação Cuidar o Futuro

Huang Ping -

material vs. spiritual

at ≠ levels of regionalization, all are stakeholders

≠ levels of the whole

in all who don't hurry to urban etc.

- at the

- to avoid a one-

- to be so dirty 1/20

= common words to have  
people have to be positive

- quite contradictory

Bugur

choices are constrained by whether  
change of policies of World Bank,  
- probably miss

- No single actor is at the center.

New elements of last 30 y:

pluralism

global contribution to an

theory

Fundação Cuidar o Futuro

- industrial trade-unions  
new types of corporations  
→ 20% of services

Parag - HR is because of 2 covenants  
 ↓ no serious measures of implementation  
 - the question of HR has been determined by the W

- humanitarian intervention:

need for guide-lines

[HR + market] → does it go together?

- short-term privatization led easily to corruption
- trade + commerce moving to the center of politics
- arms sales

- early 90s peace-dividends vs. budget for defense

- NGOs to promote HR  
 ↓ risks of incoherences

constructive engagement:

- to sustain countries that are doing "well"

- many issues are not so

trade-unions } less directly involved with HR issues  
 Churches }

- HR are usually based in W  
 and yet they are seen as part of foreign policy  
 + should

- TNC need to be more accountable according also to national
