Dear participant,

As co-chairs of the invitation conference on 'The Social Quality of Europe', and on behalf of Mrs Erica Terpstra, State Secretary for Health, Welfare and Sport, we would like to express our great appreciation for your valuable and inspiring contribution to the success of our conference in Amsterdam.

The feedback we received so far has been both positive and encouraging. We are confident that the results of the conference, in particular the implementation of the recommendations, will be leavening in policy making as well in research. The Ministry of Health, Welfare and Sport will arrange for the report of the conference to be sent to you. This report will contain all material which came available during the conference.

The Scientific Board, on the other hand, might contact you in the future as it will try to collaborate with a publishing house to put the most relevant texts available to a wider public.

We trust that you enjoyed both the conference and Amsterdam as a Capital of inspiration and we hope you feel encouraged to contribute to the social quality of Europe in future.

Peter Pennekamp,

Chair

Jos Berghman,

Co-Chair
