Thank you , Mr. Chairman.

First of all I would like to say that I agree with the sponsor that my name will be also as co-sponsor of this draft resolution. Nevertheless I would like to suggest an addition to §4. I was encouraged by the very important interventions this afternoon. In doing so I will say what my amendment is, we have two sentences in §4 : "Stresses the important part UNESCO can play, by its studies and its information activities in exposing the inhumane character of the system of Apartheid,...."- I would take off the last sentence and replace it by: "and would like to add, if it is agreeable, and in analysing the socio-economic and cultural causes which create other situations of separate development" ("et en analysant les causes d'ordre socio-économique et culturel qui créent d'autres situations de développement séparé"). If the co-sponsors are in agreement, I would like to make this suggestion.

Thank you, Mr. Chairman.
