

W's social move
as an indication of
human integrity or
of androgynous being

...the emerging $\bar{w}$
is casting off role
definitions and moving
toward androgynous
being. This is not a
mere "becoming fuel
to men in a man's
world" (...) is rather,
something like God
speaking for the God-self
in the new identity
of $\bar{w}$

Fundação Cuidar o Futuro

The beginning of androgynous human persons implies a radical change in the fabric of human consciousness + in styles of human behaviour. (15)

(artificial polarisation of human qualities into the traditional sexual stereotypes)

(16)

does "God-21K"

encourage human
becoming toward
psychological + social
fulfil., toward an
autonomous mode
of living, toward
transcendence?
